Fama nupera *Nauvachia* (Vir prænobilis!) celeberrimæq;
VENETIARUM Victoriz, quæ totos terrarum per-
currit orbes, & nostrates etiam (licet à toto orbe *divisor*)
in communem gratulationem *conjunxit*, & hanc Eucharisti-
cam *Encomiasten* excussit. Clamarent nimirum montes, si jam
tacerent homines, & tripudiantia saxa (uti olim ad *Thraciam*
Lyram) ad tot Tympanorum triumphantium sonitum in læticiam
prorumperent. Ingratum igitur duxi diutius filere, & incongruum,
nec minus absonum reputavi cuiquam alio quàm *Tibi* (Nobilis *Pro-*
Legato!) Musarum primitiis hasce consecrare, devovere: *Tibi* in-
quam vigilantissimo Patriæ velut *Argo*, cujus apud *Anglos* unius
est, famam dignitatemque *VENETIARUM* prorogare. Hanc
igitur Ebuccinatricem *VENETIARUM* Thalam protege,
tutelarique patrocinio dignere

Amplitudini vestre devotissimum,

P. PISCATOREM.

EPINICION, &c.

SCande triumphales *Urbs* formidanda curules
Adriaci Regina Maris, gemmisq; coruscans
Læta Palestinis accingas *Tempora* Palmis.
Cum titulis crevere *Plagæ*, victosque quot hostes
Tot prope Regna vides; nec jam satis *Adria* famæ
Sufficit, aut littus quod longe proterit hostis
Dalmatus, aut tumidi bellatrix spuma *Tarenti*,
En tibi pallentes sublimis terminat *Alpes*,
Rætia ab aeriis longum vexilla tuorum
Prospiciens metuenda jugis; tua rostra verentur
Illyricæ gentes, & magni rura *Lyburni*.
Inde *Timæus* adest, ut vectigalia solvat
Imperio de jure tuo, cui molle susurrat
Mincius, & gratam testatur murmure mentem,
Hinc *Athesis*, cupidis illinc amplectitur ulnis
Eridanus, nec quid dubitat procul ore fateri
Te Caput *Europæ*, nitidum fulgentis ocellum
Syderis, *Ionii* cui per confinia ponti
Tot Fasces & Sceptra natant; Tibi *Candia* casta
Paret, ab *Æmonio* nondum stuprata Tyranno,
Intacta probitate nitens; Tibi condidit aras
Et *Venus*, & *Veneris* sedes clarissima *Cyprus*,
Indigenoque *Rhodos* longe gratissima *Phæbo*.
Cætera quid memorem? vel quot sub legibus urbes,
Quotque lacus, populusq; tuis succumbit habenis?

Hic

EPIXICION, &c.

Hic labor, hoc opus est; quis enim complexus Olympi
 Sydera, vel *Lybias* in zonam cinxit arenas? (est
 I propriâ virtute! meâ nihil indiga laudis,
 Dotibus I propriis! & tot Ditionis honores
 Tot meritis metire tuis; circumspice sedes
 Quas habitas! quantis spatiis diduxeris illis!
 Quantum profueris! Fascesque revolve remotos,
 Et Palmas aliis in finibus; aspice fœlix
 Bella *Lepantinis* quæ dudum gesseris oris,
 Cum VENETUM fœcunda Duci victoria grandes
 Attulit *Osmanidum* memorandâ strage triumphos,
 Et debellatas *Achelous* decolor undas
 Corporibus crevisse videt, metuitque teneri
 Rursus, & *Herculeâ* truncari gymnade frontem:
 Hæc vates cecinere olim, VENETIque Senatus
 Purpurei plausere Patres; majora sed istas
 Ætas nostra canit, quæ vel præsentia tangunt
 Tempora, & attonitos forsan tactura Nepotes.
 Quis mihi centenas dabit in præcordia linguas,
 Centenasque manus aciem *Titanibus* æquam
 Pandenti, numeris & euntia barbara signis
 Agmina *Phlegræas* debellatura Phalanges?
 Dicite vos Musæ quæ magna revolvitis acta,
 Quæ fuit illa dies, cum Rostra minantia Rostris
 Turritæque trabes, & lignea castra natabant,
 Passaque seclusum nigrarunt Carbasa solem?
 Obstupuit Natura parens, vidisse tot ornos
 Indigenis migrâsse jugis; contracta timebant
 Æquora squamigeræ gentes, mirataque *Nereus*
 Tot sylvas, saltusque vago fluitare Profundo.
 Quæ fuit illa Dies, (vel nox nigrantibus alis)
 Cum propius gemino juncta statione furore
 Classibus illisæ classes, densoque recurrens
 Turbine per medias grassata est grando carinas,
 Mixtaque fulminibus flammatos depluit imbres?
 Haud secus abruptis quam diro ex carcere ventis

Hinc

EPIXICIO N, &c.

Hinc *Boreas*, rapidis illinc superingruit alis
Auster, agens pluviâ fætos cum grandine nimbos;
 It cœlo fragor, & mota compage laborans
 Torpet, & excussi subsidet machina mundi.
 Quis furor ille fuit? cum mixta bitumine flamma,
 Fætaque concepto glomerans incendia vento
 Arferat insolito, & tanti cum classe Triremes
 Non restinguendis deflagraverè favillis!
 Tum *Glauci*, piscesque leves examine longo
 Lucida tostatis fugientes cœrula finnis
 Ignotis hæfire vadis; stetit *Amphitrite*
 Infelix, mirata tuos *Vulcanè* furores,
 Amburique suis metuit *Neptunus* in undis.
 Sic procul unius quæ fax in funere luxit,
 Luxit in alterius famam, *Turcisq;* pavorem
 Quæ peperere, dabant *Venetis* incendia plausum
 Crevere in cumulum strages, numeroque cadentum
 Constitit angustum Pelagus; scœnaque remota
 Mortiferas mireris aquas quæ sanguine tinctæ
 Pene *Rubrum* fecere *Salum* quod sorpserat arma
 Atque *Paretonios* submersit gurgite currus.
 Pro rerum qualis facies, lachrymantibus undis!
 Cum jacuere duces, milesque gregarius uno
Marmore, corporibus divulsæque membra natabant
 Immenso sine fine Mari; nec sydere tristi
 Cum sylvas populatur hyems tot chara relinquunt
 Brachia materno delapsæ vertice frondes,
 Quot rapido sævi correptos turbine Fati
 Illa dies damnosa tulit, carbone notanda
Turcigenis ea nigra dies, sed marmore digna
Christiadum, æternis & decernenda triumphis,
 Nec vos præteream generosi Martis alumni,
 Fælices *Venetes*, quos tunc vitalibus auris
 Abstulit illa dies, patriumque induxit olympum.
 Tu quoque purpureas cui fixit in æquore palmas
 Infelix virtus, *Laurusq;* adjuncta *Cupresso* est

Insignis

EPIXICIO N, &c.

Insignis MARCELLE vale, devote Trophæis
 Longius astringeris, Cui destinaverat æther
 Ad vitæ melioris iter, dum victima tanquam
 Communis patriam sancibat sanguine parem.
 Non impune tamen *Turæ* sensere cadentem,
 Qui jam deficiens, & jam moriturus, in hostes
 Vindicta stimulante, volat, testesque Triremes
 In sua fata vocat; rapidis velut *Esculus* acta
 Ictibus, aut variis labefacta bipennibus *Ornus*
 Nutat adhuc, tandemque solo ruitura, recumbit,
 Vicinosque operit violento pondere truncos.
 Sic cecidit fælix *Heros*, moriensque superbum
 Pertulit ad Manes vænalem morte triumphum;
 Qui (si vaticinor recte) modo fata tulissent
 Majores in luce moras, fortasse severa
 Hellespontiacos frænasset compede fluctus,
 Et *Stambulliacas* fregisset fulmine turres.
 Nec te conticeam Patriæ spectabile Lumen
 MOCCENIGO tuæ, qui summum credis honorem
 Vincendo meruisse mori, vitæque solutâ
 Nil patriæ debere tuæ; nam fortior actis
 Tolleris adversis, & iusti more *Zaleuchi*
 Uno oculo contentus eris, modo salva fruatur
Publica-Res geminis, nil jacturamque moraris
Luminis, æternam referens de vultu famam.
 Tu tamen interea spoliis *Urbs* pinguis opimis
 Longævus *Pylus* transcendas pulveris annos,
 Non verfas visura vices: Vosque *Ordo Senatus*
 Nobilis, æternis hæc gesta ascribite chartis
 Lethæos calcanda Rogos, ut serior ætas
 Cum struet annales fidos, ventura stupecat
 Posteritas tumidis cum fæta volumina chartis,
 Et *Venetum* famæ scriptos mirabitur orbes.
 Spicula tum ponet crescentibus obviis actis
 Livor, & agnoscat, pronoque fatebitur ore
 Quam *supero* sis chara *DEO*, cui militat *Æquor*,

Atque catenati coeunt in suppara venti.
 O mihi prae cunctis memoranda in carmine Regnis?
 Quae Regio in terris vestri non plena lacerti,
 Quasitam vel sensit spem? dum iudice sole
 Testibus aut stellis bellaces instruis alas,
 Noctibus adversos, vel aperta luce laceffens;
 O quoties famulis tibi *Maiores* astut armis,
 Et comes ante tuas *Fautrix Bellona* quadrigas
 Ivit, & auratis plaussit *Victoria* pennas,
 Sic victrix *Regina* domi, victrixque per orbem
 Audis in extremi crescens miracula mundi.
 Scilicet immensa tu maiestate coruscans
 Imperio munita tuo es, populique furores
 Et conjurantum rides molimina Regum.
 Non jam concusso solitis terroribus orbe
 Ingruet *Ausoniae* *Septem* Gens *Saxa* *Trionum*,
 Nec *Tiberis* Pubem populator *Alaricus* actum
 Coget per liquidae ripas habitare *Padusa*,
 Nec ferus avulsis adiget confidere stagnis
Attalus, *Eois* vel nixus viribus *Hunus*.

Hæc olim meminisse metus, sed diæ propago
 Vos jam sollicitas curas populistis, & omnes
 Vicistis virtute minas, vexillaque in omni
 Fixistis Pelago, VENEETIS ut adorea fuscum
 Surgat, & *Adriaco* sylvescant ferta Profundo.
 Audite hæc vos *Christicola*; tandemque timete
Mahumetigenæ, VENETUMq; agnoscite Numen?
 Audiat *Europæ* populus, VENETEMq; stupefiant
Hercule majorem qui tot victricibus hydras
 Classibus excindit rapidas, parilique triumpho
 Vicit, obæratas vinxitque in sæcula gentes,
 Audiat *Ausonia* hæc priscis memoranda dynastis,
 Audiat hæc gelido tellus contermina ponto,
 (Una sibi medium quâ nox prope vendicat annum)
 Proferat & magno metuendum nomen *Araxi*.
 Audiat ardenti populus qui concolor axi

 Tuque Decus, populique Caput, DUX celfe futuri
 Augurium prægrande boni, fidentior hoſtes
 Surge per adverſos, *Venerum* ut *Te* vindice corpus
 Se reparet, pulchreque tuis juvenefcat habenis.
 Voſque Magiſtratus, quos ambit purpura ſacra,

 Divus & antiquos inſtauret *Marcus* honores,
 Dives opum, famæque ſatur, Cui poplite flexo
 Succumbant late Reges, & gloria *Marci*
 Fuſa per extremas gliſcat venerabilis oras.
 Vos cum *turrito Marco* capita alta ferentes
 Sydereis ſpectanda plagis, falicibus ite
 Auspiciis, partiſque novos cumulate triumphos,
 Terrarum, Pelagique Duces: Vos clauſtra ſecundis
 Remigibus referate Maris, claſſeſque Triremes,
 Roſtraque in *Æmonio* dominantia ſubite mundo,
 Ut novitate mali concuſſo ſyndone, fronte
Baffaidum fremat ordo potens, turresque vacillent
 Vertæce, & excuſſis capitum munimina mappis;
 Cumque tot acta mari, terrisq; ſtupenda revolvat,
 Ille *Tyrannorum* fractâ gravitate Tyrannus
 Corruat, & tremulæ caligent cornua Luna.
